

Grey Fleet Checks

www.agenda-screening.co.uk | 03456 44 55 46 | screening@agenda screening.co.uk

Grey Fleet refers to employee-owned vehicles used for work, posing legal and safety challenges for businesses. Grey Fleet Checks offer a structured solution to ensure compliance, mitigate risks, and safeguard employees, reducing company liability in case of accidents during work-related driving.

Checks Included:

Verifying Licences

Ensuring that driving licenses are current and comply with legal requirements for the specific vehicle types your employees are using.

Vehicle Tax

Validating the Vehicle Tax status and ensuring the vehicle is compliant with the legal requirements around vehicle taxation.

Alerting for Disqualifications

Providing notifications for any disqualification issues or changes in license status that could affect your employees' legal ability to drive.

Vehicle Maintenance

Verifying that all employee-owned vehicles used for work are roadworthy and regularly maintained. This ensures that vehicles meet safety standards and are fit for use.

MOT Certification

Monitoring the MOT (Ministry of Transport) test status to confirm that all vehicles have up-to-date certification, ensuring compliance with legal requirements.

Insurance Verification

Insurance verification ensures employees have the appropriate business insurance coverage for their vehicles, protecting both the company and employees during work-related travel.
